THE MOST COMPREHENSIVE TECHNOLOGY SHOWCASE OF THE YEAR

33rd
**Convergence
India Expo**

**11th Smart Cities
INDIA EXPO**

Convergence India & Smart Cities India is the country's largest Information and Communications Technology expo. As ICT forms the backbone of today's emerging technologies, the expo serves as a premier platform for showcasing, implementing, and advancing cutting-edge innovations – in 6G, AI, IoT, Fintech, Blockchain, SaaS, Cloud Computing, Cybersecurity, Digital Transformation, Space Technologies, Media & Entertainment, Mobility and Smart City solutions.

Co-located Expos

IoT & AIoT innovations will power the future of connected living, transform industries, enable smart decisions, boost efficiency, and create a data-driven environment that improves lives & drives progress.

Mobile devices & accessories will continue evolving rapidly, integrating AI, health tech, and immersive features to reshape communication, entertainment & productivity, with a strong push to Make in India and boost innovation locally.

The AI race will accelerate India's technological growth, driving innovation in sectors like healthcare, education, and agriculture, while positioning the country as a global leader in AI development.

The transforming mobility ecosystem in India is driven by electric & connected vehicles, smart infrastructure, and sustainable solutions, reshaping how people and goods move across the country.

Semiconductors will drive the next wave of technological innovation, powering everything from embedded systems to Artificial Intelligence, advanced communications, and the rise of quantum computing.

Fintech will continue to transform India's financial landscape, offering seamless digital payments, financial inclusion, and innovative solutions, driving economic growth, empowering businesses, and enhancing access to banking for all.

India's startup economy will continue to attract global investment, fuel innovation, create job opportunities, and drive economic growth, solidifying the nation's position as a global leader in technology.

India's future cities will feature smart infrastructure, sustainable transport, green spaces, renewable energy, digital connectivity, and efficient public services, enhancing the quality of life while enabling economic growth.

Celebrating 3 DECADES OF SHOWCASING INNOVATION

Convergence India Expo

Imagining an AI-Driven Future Today. Innovating for a Better Tomorrow

Under this theme, the 2025 edition highlighted next-generation innovations & sustainable solutions.

With a 33-year legacy of driving the industry forward, this is India's longest-running & most influential technology expo – continuing to serve as the nation's premier platform for showcasing the future and unlocking transformative possibilities.

Quotes of the HON'BLE PRIME MINISTER for

- We are transforming governance, making it more transparent, accountable, accessible and participative. We are using technology to impart scale and speed to development.
- Our demographic dividend is our strength. The youth have what it takes to engage with the latest technology and master it.
- When you think of the exponential speed and scale of expansion of social media or a service, you have to believe that it is equally possible to rapidly transform the lives of those who have long stood on the margins of hope.

We are the world's fastest growing major economy

NARENDRA MODI
Hon'ble Prime Minister of India

Quotes for the 2023 Edition

- We have launched an aggressive expansion of the National Optical Fibre Network that will take broadband to our 600,000 villages. We will connect all schools and colleges with broadband. Building I-ways are as important as highways.
- There was a time when urbanisation was considered as a problem but I think urbanisation must be considered as an opportunity. Soon cities would emerge, not on the basis of water bodies or highways, but on the basis of optical fibre network.
- Our cities are the driving force of our economy. We are making the city a hub of a vibrant economy. Our efforts should be to keep our cities clean as well as healthy.
- Most of the cities in our country are traditional cities and have developed in a traditional way. In this era of modernization, the antiquity of these cities is equally important. We can learn a lot from every street, stone, moment and history of our ancient cities. We can learn how to advance our local art skills and products and make them the hallmark of the city!
- 'Brand India' is being built out of 5-Ts - talent, tradition, tourism, trade and technology.
- India has: Taste for technology. Trust in risk takers. Temperament for reform.
- Many tech innovations are among the biggest transformations of our era. Technology has emerged as a force multiplier in battling poverty. Digital solutions can show the way to solve global challenges like climate change. Our emphasis on making digital technology more inclusive is bringing a meaningful change in the lives of the poor.
- From long lines to online... the last few years have witnessed effective usage of technology to boost 'Ease of Living.'
- Technology means greater transparency.

In India, technology is a force of equality and empowerment

Technology means enhanced 'Ease of Living.' The numerous strides in technology in the last few years are powering India's growth.

- India has shown how to democratise technology. India has also shown how to give tech a human touch. In India, technology is a force of equality and empowerment.
- Technology brings transformation. Some of you may have heard that India is the world's number 1 in real-time digital payments.
- In India, technology is not an agent of exclusion. It is an agent of inclusion.
- We see urbanisation as an opportunity and we are committed to making our cities world class urban spaces that further 'Ease of Living.'
- Urbanisation is on the rise and we in India are fully prepared to ensure our cities have top quality infrastructure. Increase in the number of cities with metro connectivity over the last few years has been tremendous.
- India is on the move. Our economy is on the move. We are the world's fastest growing major economy. Our cities and towns are on the move. We are building 100 smart cities. Our infrastructure is on the move. We are speedily building roads, airports, rail lines & ports.

THE FUTURE

AT THE CROSSROADS OF POLICY, INNOVATION, AND EXCELLENCE...

I am really happy to see such a huge participation at the 32nd Convergence India & 10th Smart Cities India expo. It will inspire and motivate all concerned and help give them a futuristic vision. Our Indian entrepreneurs are doing an excellent job, and I'm confident that we're going to lead the world – particularly in the fields of tech and mobility.

NITIN GADKARI

Hon'ble Union Minister for Road Transport & Highways, Government of India

It's an honour and privilege to speak to this galaxy of experts, entrepreneurs, and engineers, who are working in the cutting-edge field of technology, truly embodying the spirit of the event by bringing convergence across sectors. This expo demonstrates that AI and technology are not limited to the domain of electronics but extends to nearly everything we use in daily life and across all industries. AI has to work for social good, for improving lives, and for solving societal problems.

ABHISHEK SINGH, IAS

Additional Secretary, Ministry of Electronics & IT, & CEO, India AI Mission, Govt. of India

It's an honour to speak once again at the 32nd Convergence India & 10th Smart Cities India expo. I had a lovely time discussing with my fellow panellist and brainstorming. India's strength is datasets. India's DPI story stands strong because we have the foundational DPI – the digital identity, AADHAR, and the financial ID, the UPI subset.

SANKET BHONDVE, IAS

Joint Secretary, Ministry of Electronics & IT (MeitY), Government of India

EMPOWERING INNOVATION THROUGH PUBLIC-PRIVATE COLLABORATION

SERGEY CHEREMIN

*Minister of the Government of Moscow,
Head of Department for External Economic
and International Relations of Moscow*

The Smart Cities India Expo is one of the best examples of how experts can share our knowledge and experience in the field of digitalization and providing solutions for smart and safe city programs. It's one of the leading global fairs on the topic.

PRAJEET PRABHAKARAN

*Lead IT Strategist - Startups & SMEs
Government of Kerala*

Convergence has been bridging the gap between IT SMEs, startups, and other stakeholders, like investors and corporates. Every year, it scales up to be even bigger. The startups that participated in past years are doing very well now.

A. DHANALAKSHMI

*Joint Secretary, Ministry of Science &
Technology, Government of India*

I've attended this expo for the past three years, and it consistently improves each year. IoT, Telecom & AI hold explosive potential to meet the social, economic, educational & industrial needs. I envision a future where technology benefits everyone, even the last person in line.

RAJAT KUMAR SAINI, IAS

*CEO & MD, National Industrial Corridor
Development Corporation (NICDC)*

Forums like Convergence India & Smart Cities India are guiding us all in the right direction. These kinds of events where a lot of knowledge-sharing happens are key to development.

BARKHA DUTT

*Journalist and Founder-Editor
of Mojo Story*

My advice to young women professionals would be that worrying about other people's opinions is a waste of time. Don't care what anyone else says. Be selfish – seek your own source of happiness.

ANKUR WARIKOO

*Entrepreneur and
Motivational Speaker*

As a startup, always listen to the market – It will tell you what it wants and whether what you're doing is right or not. If you listen and drop your ego, you'll always win.

PANKAJ MOHINDROO

*Chairman, India Cellular and Electronics
Association (ICEA)*

We're standing at the threshold of a \$250+ billion opportunity – the future of consumer electronics in India is immense.

AMAN GUPTA

*Co-Founder & CMO
boAt*

Earlier, there were very few or no electronics manufacturers in India. But today, a whole ecosystem is being built. Manufacturing in India has grown so much that we're now producing for the world.

PRASHANT K. BANERJEE

*ED, Society of Indian Automobile
Manufacturers (SIAM)*

EVs and alternative fuel vehicles will dominate Indian roads in the next 10 years, because we have to become a developed nation with carbon-neutral goals.

DR. R. K. UPADHYAY

*Chief Executive Officer
C-DOT*

India has taken an excellent lead in quantum technology. This transformation will create a growing need for quantum communication encryption systems, including post-quantum cryptography and quantum key distribution.

JAYA JAGADISH

*Country Head & Senior VP,
Silicon Design Engineering, AMD India*

AI has been the most transformational technology in our lifetime. But what's more important is this is a technology that we have created – it can't master us but only enable us.

HOSTED BUYER PROGRAMME

A CURATED PLATFORM, CONNECTING GLOBAL BUYERS WITH EXHIBITORS TO SPARK REAL BUSINESS OPPORTUNITIES AND LASTING PARTNERSHIPS.

Debuting at the 2025 edition, this programme was a game-changer, especially curated to foster direct, high-impact engagement between our exhibitors and domestic & international buyers. From major retail chains and corporate gifting powerhouses to leading distributors, it delivered exclusive, pre-arranged one-on-one meetings in a dedicated Buyer-Seller Lounge.

Participants enjoyed priority access to conference sessions, award nomination opportunities, and a seamless networking experience designed to accelerate business growth and deal closures. The programme wasn't just a feature, it was a catalyst for meaningful partnerships and measurable ROI.

HOSTED BUYERS

AND MANY MORE....

It was a pleasure discussing business needs, exchanging ideas, and exploring opportunities to collaborate on building robust technology platforms and delivering cutting-edge digital solutions.

ANIL DUA
CRO, OTTPlay (HT Media)

We've recieved inquires from a lot of distributors & buyers from across the country. There's been excellent footfall, and it's also nice to see so many of our industry partners here.

KANDAMARAN M
National Sales Manager Corp. Sales Honeywell

It's an excellent platform to showcase our 'Made-in-India' products! A lot of our customer base is here, as well as a lot of our competition. We got plenty of inquiries and are excited to follow up on these.

GIRISH JHA
Manager, Delta Electronics

The most unique feature of this expo is that we're able to see companies from IT, Telecom & Media in the same place, which gives us exposure to a whole new client-base.

MAYANK SHRIVASTAV
Dy. General Manager (Telecom), Powergrid

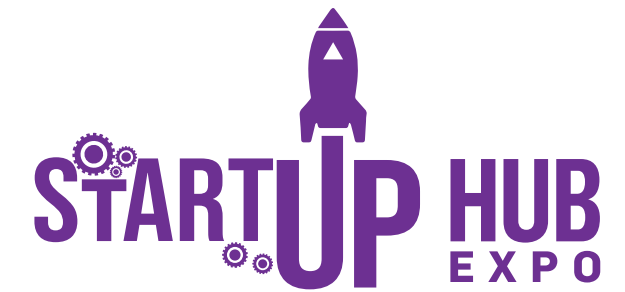

'A PERSON WITH AN ENTREPRENEURIAL MINDSET WILL FIND LIFE OFFERING THEM OPPORTUNITIES EVERY SINGLE DAY'

ANKUR WARIKOO

ENABLING INDIAN STARTUPS TO TAKE ON THE WORLD

A high-energy arena for breakthrough innovation, the Startup Hub brings together India's top founders and disruptors with global investors, incubators, and tech leaders. It's more than a platform – it's a catalyst for investment, strategic partnerships, and next-gen growth across emerging industries.

Backed by the MeitY Startup Hub and Technology Development Board, and in collaboration with the Department of Science & Technology, Govt. of India, and leading state missions like Kerala, Uttarakhand, Odisha, Punjab, Meghalaya, and IIT Patna – the expo showcases India's thriving startup ecosystem.

- 200 visionary startups exhibiting solutions in ICT, IoT, AI, Fintech, Telecom, IT & Smart Energy
- Power-packed conference sessions with industry leaders
- 100 startups competed in a high-stakes Pitch Competition, sponsored by DWTC & EI Group
- 200 one-on-one meetings during the Startup-Investor Meet, with over 100 investors in attendance.
